COMFORT – WEAR

Article Description	Fusible Jersey Interlining	
Composition	100% polyester + PA iron on coating	
Color	black & white	
Make Up Available & Strength	100m x 50 cm	51g / m ²

Features

- Comfort-Wear is a fusible, bi-elastic Jersey interlining. The bi-elasticity of Comfort Wear provides excellent wearing comfort allowing maximum freedom of movement.
- Comfort-Wear has both smooth and abrasion-resistant surface and at the same time it is very soft.
- Comfort-Wear protects the skin from potential scratching or irritation.
- Comfort-Wear is a very light fabric and thus will not show through the clothing.
- Comfort-Wear can be applied very easily (with iron etc.) achieving an optimal fixing, which lasts even after several washings.
- The adhesive agent of Comfort Wear will be activated again after each time it is ironed and hence will stick much longer than comparable products.

Recommendations for care
